FRIDAY, 18 SEPTEMBER 2020

LOCATION: LMU MUNICH // WEBINAR*

Accounting for Transparency: Real Effects of Accounting Standards

We kindly invite you to a mini conference of the TRR 266 Accounting for Transparency. The goal of the conference is to make use of the competitive advantage of the TRR, bringing together researchers with different methodological expertise. The mini conference aims at providing TRR members valuable feedback on their research on real effects by discussing their progress and opportunities for future collaborations.

*Depending on the situation the mini conference will either take place at LMU Munich or hosted as a webinar.

Our TRR mini conference intends to discuss current projects that deal with real effects of accounting. In particular, we invite members of the TRR to submit early-stage as well as more developed papers in this area. In order to ensure valuable feedback on your research each presenter will be assigned a discussant followed by a joint Q&A session.

We are delighted to announce our keynote:
