

The newly-established transregional Collaborative Research Center **"TRR 266 Accounting for Transparency"** funded by the German Research Foundation (Deutsche Forschungsgemeinschaft – DFG) is part of the School of Business and Economics at Humboldt-Universität zu Berlin. It investigates the determinants of corporate transparency and how corporate transparency affects society.

The members of the TRR 266 commit to the principles of the open science movement. Open science implies conducting research so that everybody is able to collaborate and contribute. The role of the Open Science Data Center (OSDC, C02) is to provide the necessary infrastructure. By developing and evaluating open science tools and methods, C02 will facilitate reusing, redistributing, reproducing and replicating research. In addition, it will engage in data collection and dissemination activities and host open science related events. Thus, it will share the findings of the TRR 266 with the scientific community and promote the benefits of open science.

As a pre-doctoral member of TRR 266/C02, you will work in the area of empirical accounting research, statistical programming, differential privacy and disclosure control. Doing so, you are encouraged to develop your own focal areas within these domains.

Your profile: You are passionate about open science and have completed a Master's degree in statistics, information science, economics or a related field of study. You are experienced in statistical programming, have excellent analytical skills and are able to communicate effortlessly in English. You are a great team player, have an independent way of thinking and show a high level of commitment.

The Humboldt-Universität zu Berlin aims to increase the share of women in research and teaching and, thus, emphatically encourages qualified female researchers to apply. Applications from researchers based abroad and researchers with a migration background are highly welcome. German language skills are not required. Preference will be given to disabled persons with equal qualifications.

Please send your application documents (cover letter, CV, relevant certificates) quoting **reference number DR/112/20** in electronic form as one PDF file to Andrea Häußler ([wpruefung@wiwi.hu-berlin.de](mailto:wpruefung@wiwi.hu-berlin.de)). **The Application deadline is August 10, 2020.** For additional information, please contact Joachim Gassen ([gassen@wiwi.hu-berlin.de](mailto:gassen@wiwi.hu-berlin.de)).
